Letter of Support by Khalid Saifullah Ramaani

My feelings, on a visit to England regarding Halal methods of slaughter. This humble servant had the honour of visiting and understanding the Halal Monitoring Committee (HMC) operations, who monitor the Islamically correct and incorrect method of slaughter in a country like England. In this regard only after attaining complete satisfaction do they issue a certificate of Halal. Also after the certification they monitor the slaughtered animal and the outlet. Having observed this meticulous method I felt extremely happy and impressed.

This humble servant implores to all brothers and sisters in Islam to support and strengthen this institution and encourage all the meat suppliers to obtain their approval, as to safeguard the Muslims from haraam and stay steadfast upon Halal is imperative and an obligation of the Deen. May Allah grant this institution with proliferation, prosperity and grace the staff with the best reward, "and Allah He alone is the helper".
